

The Daily Gazette. City of Janesville. Wednesday Evening, May 9, 1860. Official Paper of the City. Republican Presidential Electors. AT LARGE: WALTER D. MCINDOE, of Marathon. BRADFORD RIXFORD, of Winnebago. FIRST CONGRESSIONAL DISTRICT: W. W. Vaughn, of Racine. SECOND CONGRESSIONAL DISTRICT: J. Allen Barber, of Grant. THIRD CONGRESSIONAL DISTRICT: H. Lindeman, of Jefferson. Ho! for the Convention.

It will be seen by referring to the notice of Mr. Patterson that the Chicago and Northwestern railway will sell tickets at half fare to Chicago during the convention, commencing on Wednesday the 16th and good until the Saturday evening train from Chicago, May 19th.

Under this arrangement thousands will attend the convention from this section, where hundreds would only have gone, paying full fare. Almost every other man we meet says he is going to Chicago. We know of an instance where a family of six persons will attend whereas if the fare had not been reduced but one would have done so.

When the number of railroads, centering at Chicago, is considered, and that upon all of them the half fare system is adopted, even as far east as Portland, Maine, it must be apparent that there will be an immense gathering of the people. It is estimated, with truth we believe, that not less than fifty thousand people will be present upon that occasion.

We see that ample preparations are being made for the reception and entertainment of this mighty mass of people. The citizens of that city will take a pride in doing the thing up as it should be. We will warrant that the reputation of the great northwest will not suffer at their hands.

They have erected at their own expense, a Republican Wigwag, for the accommodation of the convention and the people, which will hold, it is said, ten thousand persons. We see by a notice in the Journal that the ladies were to meet to-day for the purpose of decorating the interior of this immense hall, "armed with needles, thimbles, scissors," &c.; while the young men were to attend at the same time, to assist with tacks and hammers.

Committees appointed by the different republican associations, are making arrangements for the reception of the delegates to the national convention, and for the accommodation of visitors.

We notice also that the residents of Chicago, from the different states, have appointed committees to attend to the reception of delegates from their native states.

Notwithstanding the ample preparations which appear to be going forward in anticipation of this convention, we think the Chicago people will be astonished not a little at the numbers which will pour in upon them on Thursday and Friday of next week. They will please make room for a thousand from "Old Rock," to begin with.

THE "CONSTITUTIONAL UNION" CONVENTIONS.—This apology for a political party will assemble at Baltimore to-day. The special Washington correspondent of the Cincinnati Gazette gives us an inkling as to what we may expect. He says—"A large number of the members of the Constitution at Union Convention have already reached Baltimore. Most of them are from the west and southwest. The irrepressible conflict is bound to break out in that body, and a fierce struggle will take place between southern and northern delegates—the former looking towards Richmond and the latter towards Chicago. Strong lobbying has already commenced, and I have been informed to-day that certain Ohio delegates have expressed their determination to ignore Chicago, and put up a man without reference to that body—in other words, to do what the south requires."

MASSACHUSETTS DEMOCRATS CARRY OFF A SLAVE.—A telegraphic dispatch from Boston, of April 7th, gives the following amusing incident, which happened to the Massachusetts delegation to Charleston, on their passage home: "The steamer S. R. Spaulding, with the Massachusetts delegation to the Charleston convention, arrived at 2 o'clock this morning. Some excitement was created on board early Sunday morning, by a fugitive slave crawling from the coal bins in the fore part of the vessel. He gave his name as Wm. Brooker, and declared that he was a free negro, but the circumstances would not admit of the truth of the statement. Capt. Howes altered the course of the Spaulding, and intercepted the steamer Benj. Deford, which left Boston Saturday for Baltimore, when William was transferred to the Deford, and consigned to the parties missing him. The democracy of the Spaulding could not help admiring the ingenuity and impudence of the negro in selecting their special steamer as his transport to liberty."

What must have been the thoughts of Caleb Cushing, and the Massachusetts delegates, upon finding a "nigger" in their possession under such suspicious circumstances? We will venture to say that the Wisconsin Douglas delegation would not have taken so much pains to return the nigger, considering their present feeling toward the south.

A DEMOCRATIC OPINION.—The Madison Argus is not over-confident of the nomination of Douglas at Baltimore. It says: "How the Democrats may calculate.—A letter writer at Washington, in giving the current gossip, speaks of the adjournment of the Charleston to Baltimore in this wise:—Mr. Douglas' friends claim the adjournment as a victory, and that the result of the adjournment will be that the delegates will be sent from the second states, and it is argued that they will be selected by persons of Mr. Douglas' old friends, and of the strength of course this would secure his nomination if his present adherents stand by him."

We doubt, however, the soundness of such calculations. We regard his nomination as simply out of the question, unless he accepts it as a second candidate, with almost a certainty of defeat.

The weather is cooler since yesterday.

From the Zanesville Courier. Fall of Meteoric Stones in Ohio.

An extraordinary phenomenon occurred on Tuesday, about noon, which has been noticed in many counties in eastern Ohio. This occurrence, although it may be incredible to some, was certainly noticed by many in different localities about the same time. In this city the explosion or noise was distinctly heard. At New Concord, sixteen miles east, a gentleman who was out in his field heard a crash, similar to sharp thunder, a succession of which lasted half a minute, and then died away like the sound of a receding train of cars. On looking up he observed an object descending, with great rapidity in an angling direction, and on marking where it touched the earth, he there found a stone imbedded two feet in the earth, and somewhat warm, weighing 52 pounds. Another was found of 56 pounds, one of 40 and one of 36 pounds in weight, all within the circumference of a few miles. A small portion of one of these we have in our possession.

At Bellair the concussion was so strong as to force open the large doors of a car house.

At Malaga some of the inhabitants were frightened, thinking it an earthquake. The shock at Barnesville seemed to jar the buildings to their foundations.

Some boys were out in the woods near McConnellsville, which is perhaps thirty miles from Concord, and observed what they termed a large red ball descending to the earth with a fiery tail to it, but were so frightened as immediately to return home.

From the Columbus Statesman, May 5th. A correspondent in New Concord, Muskingum county, in a letter published in the Statesman on Tuesday morning, mentioned a singular phenomenon in that neighborhood on Tuesday. It was an astonishing noise in the sky like the roar of a cannon, which was followed by the fall of a number of stones, weighing from two to fifty pounds. Since the date of our correspondent's note we have received other letters from the same region of country, which not only corroborate his statement, but add greatly to the singularity of the phenomenon. It appears that the noise alluded to was heard through a wide range of country, and that stones of the kind described were found freshly imbedded in the earth in the same manner, miles apart.

At Muskingum, Coshocton, Morrow and Lucas counties the explosion was distinctly heard. Near McConnellsville several boys observed a large stone descend to the earth, which they averred looked like a red ball, leaving a line of smoke in its wake. A gentleman walking in his field, near New Concord, heard a terrific crash like thunder, which lasted half a minute, and then plainly saw a large body descending over the hills, and striking the earth at a depth of two feet. The phenomena seems to be unprecedented. These stones were found nearly fifty miles apart, although the explosion was heard at all the places mentioned from the direction of New Concord. Houses were shaken by the shock, and in one or two instances the doors burst open. It occasioned a great deal of consternation in that section of the country, as well it might.

AN ARMY OF MORION PLOUGHING.—There arrived in this city by railroad, on Saturday night, a party of between 400 and 500 Mormons—men, women and children—who had come through from New York, where they landed on Thursday last from the ship Underwriter, in which they came from Liverpool, and who are on their way to Salt Lake City, in Utah. The majority of the party are English, some Swiss and a few Germans.

They stopped in the city all day yesterday, quartering in one of the Illinois central freight houses, at the great depot, and left in a train on the Burlington road, last evening. Many of them—especially the women—looked worn and dejected, probably the effects of the long journey and the warm weather. On conversing with some of the men, we were surprised to find the amount of intelligence there was among these poor and rough looking emigrants. They are on their way to Florence, Nebraska, where the whole party, some of whom have gone south, east and west to give a hearty "clash" to this country, will rendezvous at a certain time, and start in wagon and hand-carriage across the plains for Utah and principally around the Prophet Brigham Young.

The whole party of pilgrims is under the leadership of Brother Ross, an English Mormon, about 40 years of age, who has visited this country before and made a trip to Salt Lake. He assured us that these people neither believed nor practiced the doctrine of having more wives than one.—Chicago Journal.

WONDERS OF THE TELEGRAPH.—Messengers are constantly being received or sent to and from Paris, Berlin, Hamburg, St. Petersburg, Moscow, Pesth, Prague, Constantinople, etc.; indeed, there is no town of any importance on the continent with which direct telegraphic communication may not be had. The largest stretch which has yet been taken without a break is that to Odessa, via St. Petersburg—a distance by telegraph of 3,500 miles. The electric spark started from Great Bell Alley, dashed off along the eastern coast, leaped into the sea near Lowestoft, ran up the English Channel, crossed the Elbe, passed through Hamburg, to Berlin, hastened on to St. Petersburg, travelled to Moscow, sped along over the bleak steppes of Southern Russia, locked in at Kief, glanced at the busy shipwrights at Nicolaioff, passed over the swamps of Simpheropol, and leaving the Crimea, skirted along the northern coast of the Black Sea, and rang the little bell of the slumbering clerk at Odessa, to call his attention to the winged words of the sage which was following close at his heels.

THE MAGNITUDE OF THE LATE COMMERCIAL.—Last year at this time, the vessels of our lakes had literally nothing to do. The tug boats in this vicinity did not make enough to pay for fuel. This spring it is very different. For instance, during 48 hours up to yesterday noon, one hundred and sixty vessels, loaded with grain, passed here for the east. It is estimated that the total tonnage would be 15,000 bushels per vessel, or nearly 1,000,000 bushels. The tug boats, which are all they can do, and vessels and steamers are prospering. A most decided improvement has taken place in business matters. Most of the vessels from Chicago and Milwaukee stop here for supplies, which is a great item of trade for this city. A good crop in Michigan this year, and we are all right.—Detroit Advertiser.

SAM HOUSTON A STRAY CANDIDATE FOR THE PRESIDENCY.—A letter from Huntsville, Texas, to a gentleman in Charleston, says that "Sam Houston is out as an independent candidate for the Presidency." Sam may be considered as being now fairly on the course, and it is more than probable that the Baltimore national union convention will heartily endorse him.—New York Herald.

A country parson was addicted to using the phrase, "I flatter myself," instead of "I believe." Having occasion to exhort his congregation during a revival, he "flattered himself" that more than one-half of them would be damned.

REPORTED FOR THE MORNING GAZETTE. BY WISCONSIN STATE TELEGRAPH LINE. Office in Union Passenger Depot.

BALTIMORE, May 8. Delegates to the constitutional convention to assemble to-morrow are arriving in considerable numbers, and the hotels are filling up. The old first presbyterian church building, recently bought by the government for a court house, has been finally fitted up for the accommodation of the convention. A full length portrait of the president has been placed behind the president's chair, and the interior of the building is draped with flags. There is considerable speculation as to the course to be pursued. A meeting was called for to-night of the friends of Mr. Botts, but for some reason it did not take place. The old church is the same in which Martin Van Buren was nominated for the presidency.

Delegates are here from 26 states. Every state and territory except Oregon is expected to be represented. Among the arrivals are Messrs. Leslie Combs, Bell, Parson Brownlow, Goggin, and other distinguished politicians. Several delegations have taken their headquarters at Barrum's hotel. The New York delegation voted unanimously to have no platform but the union, constitution, and the enforcement of the laws. An informal ballot, as expressive of their preference for president, resulted as follows: Gen. Sam. Houston, 27; Judge McLean, 2; Gen. Wool, 2; Gen. Scott, 1; John Bell, 2.

A call has been issued by the democrats of New Castle Co., for a public meeting, to be held to-day, to take measures to have the county fairly represented in the adjourned National Convention to repudiate the course of Senator Bayard.

WASHINGTON, May 8. The Postmaster General in a communication to the senate to-day, responsive to a resolution of inquiry in the subject of lessening the number of dead letters, says that after the most careful consideration, he is constrained to believe that the chief improvement in the dead letter office, must be effected by providing for the return of letters through the office in a greater number and at a shorter time.

BALTIMORE, May 8. Tribune Correspondence.—The convention bids fair to be a full one. Messrs. Houston and Bell are the leading candidates, between whom there is likely to be a warm contest. Tennessee particularly resists Mr. Houston. A large majority of the New York delegates are for him.

Mr. McLean does not manifest much strength. He would be stronger and perhaps nominated, but for the belief that he would be rejected at Chicago.

A careful examination of the condition of the treasury shows that there will be a deficit of at least eight millions of dollars at the close of the fiscal year, on the 30th of June, on the basis of Secretary Cobb's receipts, which must be supplied either from a loan or treasury notes.

BALTIMORE, May 9. The city presents an animated appearance, many strangers are in town and the head quarters of the delegates are thronged. There is a great rush for tickets of admission. Delegates from every state except Oregon and South Carolina have reported themselves, some in advance of their arrival expecting to reach here to-day.

The hall presents a gay appearance and the galleries are fastened with red, white and blue. The west gallery is appropriated to the ladies. By noon the galleries were densely packed, and much enthusiasm was manifested as the delegations appeared and occupied the seats allotted to them.

Various distinguished men were warmly applauded in the galleries. At noon, the convention was called to order by John J. Crittenden, whose appearance was greeted with loud and prolonged cheering.

Prayer was offered by Rev. Dr. John McKay.

Mr. Crittenden moved that the Hon. Washington Hunt, of New York, take the chair, which was unanimously approved. Mr. Hunt, on taking the chair, delivered a powerful address—designated as a question that has split the democratic party as a mischievous action. He believed that the convention has power to rally around it the patriotism of the country.

On motion of Leslie Combs, a committee on permanent organization was appointed, and also on credentials.

All the states except Oregon and South Carolina are represented.

THE MARKET. New York, May 9. Flour less active but prices unchanged, 5,150,500 bushels to medium extra western. Wheat market dull and rather easier, sales 40,000 bush. 1,275 Chicago spring; 1,300 Milwaukee club. Barley heavy 55c. Corn market without much change.

[From a letter to the New York Tribune.] Gov. SEWARD in MASSACHUSETTS.—How silly some people appear when so alarmed by the result of the Rhode Island election! They are like a flock of sheep startled by the skipping of a young lamb. This is a republican defeat. I have found scarcely a republican who does not prefer Seward for our presidential candidate. Still, many fear that he is not generally popular. Everybody wants Seward, but everybody thinks that everybody else doesn't want him. I have conversed with men from all parts of the country, north and west, and the result of my observation is, that the vast majority of the voters of the west do not want Seward. Now, if his union with us will be only on condition of his ruling, which would only work the ruin and demoralization of our party. If we cannot elect our choice for president on the strength of our principles this time, let us wait patiently until we can, thus showing the party of our intentions, and the final result will be a strong and victorious party, whose movements shall not be governed by availability of candidates, but by principles, laid firm and deep in the hearts of the people. But I believe the worst of the carrier, who was receiving the white feather just on the eve of battle. The availability plan is all gammon, and it will prove, as it always has in the long run, a suicidal policy. Give us a candidate who represents the north on the great question of the century, and you shall see that "At last, there is a north." Boston, April 12, 1860.

FIGHT BETWEEN A MAN, DOG AND EAGLE.—In Canada, the other day, a young man was plowing in a field, when his attention was attracted by the barking of a bull-terrier dog, and on looking after him, he discovered the animal engaged in a fight with an enormous eagle. Seizing a stick he ran to the assistance of the carrier, who was receiving the worst of it from the eagle. On approaching, the eagle turned upon his new adversary, and in all probability would have overcome him had not the faithful dog come to his rescue and renewed the fight. After a short scuffle between the eagle and his two adversaries, he was dispatched, and the young farmer carried his carcass home as a trophy of success. He measured nine feet from wing to wing.

Highway Robber in the Illinois Legislature.

The Cleveland Herald tells a "romantic story" of the truth of which it says "beyond question." In the spring of '59, E. Dodge, the vocalist who now resides in Cleveland, was to give a concert one evening in Pittsfield, a town in New Hampshire but a short distance from the Massachusetts line. While on his journey the previous evening he missed the stage, and proceeded on foot. In a lonely part of the road he was attacked by a highway robber, but floored him. The story then runs:

Dodge promised to let him go on condition he told him the reason of the attack. The man burst into tears, stating that nothing but starvation impelled him to the crime. He was a young man of respectable connection, but had been seduced by gay companions into habits of dissipation which had ended in leaving him without money or friends other than a young wife who clung to him in spite of everything. Finding no chance of getting a living in his native place, he had set out with his wife in hopes of obtaining a situation as clerk in a store in some other place, but although they had visited many towns and villages, he had met with no success. To add to their misery the sufferings and privations which they had endured, his wife was to become a mother, and the new law in a barn at a short distance, unable to proceed further, and in hourly expectation of giving birth to a child. With a wife in this position, with no money in his pockets and no food to eat, it was not astonishing that the wretched man had been driven to the desperate course of committing a highway robbery.

Dodge heard the man's story, and at once requested him to show the way to the barn. Here the woman was found, and she confirmed the story of her husband's narrative. No time was to be lost, and Dodge, during which he would speedily return, Dodge set out at a rapid rate for Pittsfield; a horse and wagon was quickly obtained and driven out to the barn, when the unfortunate couple were taken to the town and brought to the tavern. A doctor was procured, nourishing food supplied, and orders given by Dodge that every care and attention should be given them at his expense. Before morning a boy was born.

Next evening the concert was given, and the entire proceeds, amounting to about forty-five dollars, were handed over to the now recovered highway robber, who, leaving the place Dodge interested many of the leading citizens in behalf of the couple, and left with the satisfaction of knowing that his proteges were no longer in danger of want.

Nothing more had been heard of them by Mr. Dodge until Saturday evening last, when a well-dressed man entered the music store and enquired for him. Although the man gave his name, Dodge neither remembered the name nor the person until reminded of the circumstances under which they met fourteen years ago. It seems that he had obtained a situation in Pittsfield, and remained there for nearly a year, when he left and settled in Illinois, and had worked his way up to comparative opulence and distinction, being at present a member of the Illinois legislature. His wife died about a year since, leaving no children except the boy who was born under such peculiar circumstances, and who had been named after the benefactor of his parents.

The above particulars we learned from the gentleman himself. He is a remarkably frank, intelligent man, and is a favorable specimen of an Illinois legislator. At his request we have refrained from publishing his name, whilst having free permission to use the story. What his history would have been had the night attack on Dodge never occurred, is a subject for conjecture, but it is highly probable it would have been very different from what it has been.

The Democrats and the Supreme Court.

The democrats of the whole country are prepared to submit cheerfully to the adjudication of the highest judicial tribunal of the nation in relation to any further questions of constitutional construction which may arise.—Atlas.

The democrats are now prepared to submit to the supreme court, because the bench of the supreme court is occupied by democratic partisans. Their conversion to the doctrine of infallibility of the supreme court, only dates from the time of the Dred Scott decision. For half a century before they clamorously demand that the court be overthrown, and now they claim for it authority to overrule the country against the overrulings of the supreme court.

Jackson denied the power of the supreme court to prescribe rules for his action.—Taney in the cabinet, and Buchanan in the senate, upheld him in his war on the court. But times change and men change with them. Jefferson and Jackson have gone to the grave. Buchanan lives to denounce his own senatorial speeches, and Taney sits on the bench to repudiate Taney off of it.

In 1798, the democratic judges of Pennsylvania denied the controlling power of the supreme court. In 1818, the democratic judges of Virginia refused obedience to the supreme court. In 1854, the democratic judges of Georgia treated the mandates of the supreme court with contempt. But in 1857, the supreme court declares that slavery goes everywhere under the American flag, and—presto, change!—up starts a Black from Pennsylvania, a Wise from Virginia, and a Toombs from Georgia, to swear the supreme court is infallible and omnipotent!

The supreme court, once upon a time, decided that congress has power to charter a United States Bank. The democrats at the next convention resolved that congress had not power to charter a United States Bank. At every convention since, they have persistently reiterated their defiance of the court and the bank. The bank is dead and gone, but they continue the war against its ghost and the court, by still denying that congress has power to charter a United States Bank!

Before the democrats undertake to pronounce "traitors" of all of us who fail to see a supreme authority in the *obiter dicta* of supreme court judges on questions not before them, let them go back and revise their own record. Let them recant their platforms, back down from their state decisions, and explain away the opinions of its founders! Then, perhaps, it will be believed that their reverence for the Dred Scott decision springs from their zeal for the constitution, and not for their zeal for slavery.—Albany Evening Journal.

TOM MARSHALL AND COST JOHNSON.—John DeFees, writing from Washington to the Indianapolis Journal (his old paper), says:

"Twenty years ago I was looking on at the doings of congress. The two men who attracted the most attention were William Cost Johnson of Maryland, and Thomas F. Marshall of Kentucky. They were the most brilliant orators—the observed of all observers." Mr. Johnson died in the city five days ago, a pauper, and an outcast. It is a sad story, and one that is not to be forgotten. Mr. Marshall, it is said, was informed that Mr. Marshall had been inmate of a hospital at Buffalo, diseased and miserable, and about to die! Intemperance, of course, is the cause of all this.

Was it?—The Berlin News says it was the "man in the moon" that Venus was leaning up to, so costly, the other night.

ALL SORTS OF PARAGRAPHS.

F. P. Blair, Sen., and Wm. L. Marshall, are delegates at large to the Chicago convention from Maryland. Mr. Blair will be one of the most influential members of the convention. He had much to do with securing the nomination of Fremont in 1856.

A good story is told of Hon. Thaddeus Stevens, of Pennsylvania, in connection with the tomb battle for Douglas at Charleston. The news came over the wires that Mr. Douglas had received one hundred and fifty and one-half votes. "One hundred and fifty—and one-half!" repeated Mr. Stevens, very slowly and mock seriously, "the one-half means Bigler!"

John Thomas Sergeant, ex-judge of the supreme court of Pennsylvania, died in Philadelphia, on the morning of the 5th inst.

IMPORTING EVERGREENS.—The Muscatine (Iowa) Journal learns that two gentlemen are on their way to that city with a raft of young trees, and 8,000 cranberry vines, fresh from the Wisconsin plantations.

The rooms, seventy-five in number, provided at the Metropolitan Hotel, in New York, for the use of the Japanese Embassy, are to be arranged with special reference to Japanese household customs, and supplied with conveniences peculiar to Japanese residences of the first class, so far as circumstances will allow.

Benj. Compton, a justice of the peace, eloped with his sister-in-law, Miss Badgley, from Somerset, Kentucky, a few days since. Geo. Raymond, a Frenchman, was choked to death recently while eating dinner at Richmond, Virginia.

SEVENTY ACRES PLOUGHED BY STEAM.—Emery's Prairie Farmer has an account of the working of the new steam plow of Mr. Waters, which the editor has seen in operation at Minooka, in Grundy county. It turns over six furrows, nine feet in width, at the same time, and in 72 minutes, including stops, it ploughed rather more than two acres and a half. The whole cost of running the machine is estimated at \$9.

About seventy-five acres had been turned over when the account was written, and the inventor had just commenced on a still larger job. It is not pretended that the invention is perfect, but the editor thinks a decided advance has been made toward a practical solution of the problem of plowing our prairies by steam.

The one vote that was cast at Charleston for Jeff. Davis was given by the melancholy Caleb Cushing, of Massachusetts, president of the convention.

THANKFUL FOR SMALL FAVORS.—The News exults in the election of chief justice Dixon as follows:

"We congratulate the democracy of Wisconsin, and the friends of law and order everywhere, upon the above result. We send greetings to our sister states, the glorious achievements of the friends of the constitution. Wisconsin has been regarded for the past few years as being in rebellion against the constituted authorities of the union. She is no longer liable to the aspersions. Nullification has been driven from its den. 'Nullification' has recovered a marred robe, and the black republican is tottering to its fall. 'Behold how brightly breaks the morning!'"

If he loses glories in the election of a judge who holds the fugitive slave law unconstitutional and that the United States supreme court is not to be obeyed by the state courts when its decisions are clearly beyond its jurisdiction, we cannot see why he may not also rejoice in the election of Wm. H. Seward for president.—Madison Journal.

THREE LITTLE BOYS SENT TO STATE PRISON.—During the past month, three little boys have been convicted and sent to state prison from Milwaukee one of whom does not appear to be over eight or nine years of age; we confess we cannot understand the principle upon which sentences to state prison, have been inflicted upon these children, they are certainly too young to be legally responsible for any criminal acts, ever may have committed. It shows how the importance of an early completion of the state reform school, for the reception of these parentless, friendless juvenile offenders, there certainly is no justice or humanity in sending them here and we sincerely hope that the repetition of such a sentence may never again be inflicted upon the community, we do not assume to blame the executors of the law, but question whether the amount of crime these children can commit, will justify the infliction, at so early an age, of an infamous sentence.—Prison City Items.

COMPOSITION FOR A BOARDING SCHOOL GIRL.—"The Rose.—The rose is the prettiest and most perfumable of all flowers. Although a little out of fashion, it is very nice; it is sweet, pretty, and oh! so sweet. The rose has several languages, all speaking of love. It is so nice to converse with roses, and to hear them say so much. The rose blooms in the early winds of June. The early winds of July blow the rose away. That is so sad; so much like human life; the rose is so like a beautiful maiden, and the rude winds so like the cold and unfeeling world. It is not nice, but, alas! so very sad!"

SIXTEEN YEARS OLD.—It is just sixteen years since Prof. Morse put up the first electric telegraph in America. The first piece of news sent over it was the nomination of James K. Polk for president, made at Baltimore, and announced in Washington "two hours in advance of the mail."

No one at that day, probably not even the Professor himself, dreamed how closely the electric wire would be interwoven with our daily life. Now, railroad trains are run by electricity. Thieves are caught by electricity. Fire bells are rung by electricity. Watches are set, and clocks strike by electricity. Armies march and fleets sail at its bidding. Treaties are negotiated at its word. Two friends in remote towns, by its help, sit down and have a family game of chess. Two emperors, a thousand miles apart, by its help, carry on the siege of a distant city.

By night it flies all over the world, gathering news to serve up to us at breakfast. By day, it flies all over the world, here congratulating a bride, there ordering a funeral, here warning of disaster, there summoning help to a wreck, here buying pork by the hundred barrels, there selling grain by the thousand bushels, arranging for freight and cargo, for servants and stock bargains, for the harmonies of a concert and the discords of a convention, for law-making, for law-breaking, the fall of empires, and the fall of the thermometer, the candidates for the presidency and the candidates for the penitentiary. Truly, the romance of the Arabian Nights is tame beside the reality of the electric wire.—Albany Journal.

Franklin, on hearing the remark that what was lost on earth went to the moon, observed that there must be a deal of advice accumulated there.

SPECIAL NOTICES.

Dentistry. M. B. Johnson still continues the practice of Dentistry at the old place, over the Rock County Bank, corner Main and Milwaukee streets, Janesville, Wis. He is now manufacturing artificial Dentures on Vulcanized Rubber Bases. This substance has been thoroughly tested, and found to be superior to any other in every respect, and is worn with greater ease and comfort than most anything else, and is as economical at a price which places it within the reach of all. Call and see it. He also continues to do the Continuous Gum Work, which is superior to all others; together with all other styles of work now in use. may2dndv

## A NEW DEMOCRATIC PAPER.—Brilliant.

ham, Martin & Bro., have issued a prospectus for a new weekly democratic paper in this city to be styled the "Janessville Inquirer," and issued the first Wednesday in June next. It is also proposed to publish a daily about the 1st of July, if sufficient support can be procured.

The establishment of a democratic journal in this city is only a question of time, and if the paper now proposed to be published meets the approbation of "the democracy," we say no reason why it should not be issued at the time designated.

ILLINOIS VOTING.—J. S. Marshall Lewis is under indictment for illegal voting in Milwaukee. As we hear the circumstances, Mr. Lewis voted at the charter election in Milwaukee, and changed his residence from one ward to another immediately before the election. His family, in the mean time, being in Madison. The Free Democrat of Monday says: "The case of John H. Lewis, J. S. Marshall, was before the municipal court this afternoon, for illegal voting at our recent charter election. District Attorney Carson appears for the state, and Mitchell Sweeney for the defense. An argument was being made for the dismissal of the case, by Postmaster Sweeney, when we left the court room, for a defect in the complaint."

BUSINESS IMPROVING ON THE NEW YORK CANAL.—The Buffalo Express says that due to the business of the canal from that point exhibits a most gratifying increase, although the navigation of the lakes has been unusually obstructed; and freight has not been until a very late period. Under the circumstances the very large eastern transportation, with which the season opens, is rather surprising. The tolls collected at Buffalo in the first week of navigation, ending Monday, May 1st, amounted to \$18,202 25. In the first week of canal navigation in 1890 the tolls amounted to \$2,218 12.

RE-ESTABLISHMENT.—The Free Democrat says: "We learn from Mr. Andrews, that the Wisconsin Co. Sovereign, which office was destroyed by fire, during the last winter, is to be started again in a few days.—Mr. Edward Miller, of this city, is to furnish the outfit for the new issue."

DISCONTINUING.—The Milwaukee Saturday Gazette says that Gen. Paine, attorney for S. M. Booth, has discontinued the suits commenced in the county court against Judge Miller and Marshall Lewis.

Over two hundred car loads of live stock went east from Chicago on the 7th.—This is a pretty big story, but the Journal is responsible for it.

The Douglas men of Chicago fired 1523 guns on the 7th inst., in honor of the number of votes obtained by their favorite at Charleston. The half vote was represented by a flash in the pan. We are not certain but the latter performance was intended to describe the end of that unfortunate convention.

SOME FACTS.—The Chicago Tribune says: By the Michigan Central Railroad twenty-four hundred barrels of eggs were shipped east during the month of April, or about a quarter of a million of this popular hen fruit.

A DELICATE OPERATION.—In New York city they are now lowering a large 30 inch Croton water pipe, running through eighth avenue, to a depth of 10 feet below its present position, and it is considered an extraordinarily delicate operation, from the fact that the water continues to flow in it, and if the pipe should become disjoined that part of the city would become inundated before they could shut the water off. The pipe will not touch its new bed in any one point until the excavation has been completed the whole length—about a mile and a half. During the progress of this work, it is necessary that the most watchful care should be exercised.

What must be done to conduct a newspaper right? Write.

What is necessary to a farmer to assist him? System.

What would give a blind man the greatest delight? Light.

What is the best counsel given by a justice of the peace? Pounce.

Who commit the greatest abominations? Nations.

What is the greatest terror? Fire.

Henry, you ought to be ashamed to throw bread upon the water. You may want it some day. "Well mother, would I stand any better chance of getting it then, if I should eat it up now?"

# PROMINENT MEMBERS OF THE JAPANESE EMBASSY.

The current rumor that one of our most spies accompany the embassy is untrue. Shimo Benji and Muragake Awane are consorts, not spies, of the rank of princes, whose duty it is to act as advisors of the ambassadors.

But the chief object of interest to American ladies, among the members of the embassy, is a young officer of the first rank attached to it, whose name is Sakahara Jintoro, whose face is as light as the face of most Americans, and who is a model of manly beauty, and remarkable for the gracefulness of his manners. He is the son of a rich and powerful prince, and besides, possessed of great wealth in his own right. He already understands the Dutch language thoroughly, and is very anxious to learn the English.—Philadelphia Press.

CONVICTION IN CHINA FOR KIDNAPING COOLIES.—A trial for kidnaping Coolies was lately held before the supreme court of Hong Kong. A Chinese shopkeeper, resident in Hong Kong, was charged with "kidnaping and slave-dealing." He had taken part in inducing one hundred and twenty Coolies to embark in a passage for Macao, ostensibly for the Betel plantation near Singapore, but in fact to be conveyed to the sugar plantations of Cuba. In the course of his remarks the judge called attention to the marked distinction that exists in China, between a system of free emigration and that iniquitous traffic so productive of crimes like that now under consideration. After a short consultation the jury returned a verdict that the prisoner was guilty of every thing charged against him in the indictment. The judge then pronounced sentence of four years penal servitude.

A SHARP GAME.—We learn that on Saturday last, John Miles, of the firm of Miles & Lacey, commission merchants, corner of Spring and Second streets, went around among several of our commission houses, and purchased from them all the wheat he could secure, giving his checks for \$5,000. He then took his tickets to the warehouse of D. Newhall and sold the several lots, taking Mr. Newhall's check for the same, which he immediately got cashed, and left for parts unknown, leaving his own checks, of course, unpaid for. Warrants are in the hands of the police for both of the partners, we believe, but up to this writing no information has been received. A lot of it that changed hands in the same way, it is thought will be recovered.—Milwaukee Free Democrat.

They are in a ludicrous boggle in Troy. That city is full of cents, coppers and nickels; they are increasing so rapidly that the people are growing superstitious, thinking that they either multiply themselves, or that they attract other cents to them. They bid fair to become the exclusive coin of the city; already, ladies who buy for cash are forced to take with them a boy and a basket to carry the circulating medium. One of the papers calls for a public meeting on the subject, and for a concert of action.

Why is a pig's tail like a new-born baby? Because you never saw it before.

What is the difference between a bare head and a hair bed? One feeds for shelter, and the other is a shelter for feeds.

There is healing in a smile, and lunging is medicine to the mind.

LIFE INSURANCE.—Those desiring this safest and cheapest protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unappreciated," we would cordially invite all our friends to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

S. S. DAGGETT, Pres't.

A. W. KELLGRO, Sec'y.

Messrs. Piskey & Harlow, produce dealers, and Capt. Geo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the condition thereof, to any one desirous of being informed, in Janesville.

The Church Aid Society connected with Christ Church will meet at the residence of Thomas Loppin this evening.

A NEW DEMOCRATIC PAPER.—Bridgman, Martin & Bro., have issued a prospectus for a new weekly democratic paper in this city to be styled the "Janessville Inquirer," and issued the first Wednesday in June next. It is also proposed to publish a daily about the 1st of July, if sufficient support can be procured.

The establishment of a democratic journal in this city is only a question of time, and if the paper now proposed to be published meets the approbation of "the democracy," we see no reason why it should not be issued at the time designated.

ILLEGAL VOTING.—U. S. Marshal Lewis is under indictment for illegal voting in Milwaukee. As we hear the circumstances, Mr. Lewis voted at the charter election in Milwaukee, and changed his residence from one ward to another immediately before the election; his family, in the mean time, being in Madison. The Free Democrat of Madison says—"The case of John H. Lewis, U. S. Marshal, was before the municipal court this afternoon, for illegal voting at our recent charter election. District Attorney Corson appears for the state, and Mitchell Steever for the defense. An argument was being made for the dismissal of the case, by Postmaster Steever, when we left the court room, for a defect in the complaint."

BUSINESS IMPROVING ON THE NEW YORK CANAL.—The Buffalo Express says that thus far the business of the canal from that point exhibits a most gratifying increase, although the navigation of the lakos has been unusually obstructed; and freight kept back until a very late period. Under the circumstances the very large eastern transportation, with which the season opens, is rather surprising. The tolls collected at Buffalo in the first week of navigation, ending Monday, May 1st, amounted to \$18,202 43. In the first week of canal navigation last year the tolls amounted to \$2,248 12.

RE-ESTABLISHED.—The Free Democrat says—"We learn from Mr. Andrews, that the Walworth Co. Sovereign, which office was destroyed by fire, during the last winter, is to be started again in a few days. Mr. Edward Miller, of this city, is to furnish the outfit for the new issue."

DISCONTINUED.—The Milwaukee Saturday Gazette says that Gen. Paine, attorney for S. M. Booth, has discontinued the suits commenced in the county court against Judge Miller and Marshall Lewis.

Over two hundred car loads of live stock went east from Chicago on the 7th.—This is a pretty big story, but the Journal is responsible for it.

The Douglas men of Chicago fired 1524 guns on the 7th inst., in honor of the number of votes obtained by their favorite at Charleston. The half vote was represented by a flash in the pan. We are not certain but the latter performance was intended to describe the end of that unfortunate convention.

SOX EGG.—The Chicago Tribune says: By the Michigan Central Railroad twenty-four hundred barrels of eggs were shipped east during the month of April, or about a quarter of a million of this popular hen fruit.

A DELICATE OPERATION.—In New York city they are now lowering a large 30 inch Croton water pipe, running through eighth avenue, to a depth of 10 feet below its present position, and it is considered an extraordinarily delicate operation, from the fact that the water continues to flow in it, and if the pipe should become disjoined that part of the city would become inundated before they could shut the water off. The pipe will not touch its new bed in any one point until the excavation has been completed the whole length—about a mile and a half. During the progress of this work, it is necessary that the most watchful care should be exercised.

Eno.—What must be done to conduct a newspaper right? Write.  
What is necessary to a farmer to assist him? System.  
What would give a blind man the greatest delight? Light.  
What is the best counsel given by a justice of the peace? Peace.  
Who commit the greatest abominations? Nations.  
What is the greatest terror? Fire.  
"Henry, you ought to be ashamed to throw bread away like that. You may want it some day." "Well, mother, would I stand any longer chance of getting it then, if I should eat it up now?"

PROMINENT MEMBERS OF THE JAPANESE EMBA-SY.—The current rumor that one or more spies accompany the embassy is untrue. Simmo Benjo and Minagawa Awano are censors, not spies, of the rank of princes, whose duty it is to act as advisors of the ambassadors.

But the chief object of interest to American ladies, among the members of the embassy, is a young officer of the first rank attached to it, whose name is Sakahara Jui-goro, whose face is as light as the face of most Americans, and who is a model of manly beauty, and remarkable for the gracefulness of his manners. He is the son of a rich and powerful prince, and is, besides, possessed of great wealth in his own right. He already understands the Dutch language thoroughly, and is very anxious to learn the English.—Philadelphia Press.

CONVICTION IN CHINA FOR KIDNAPPING COOLIES.—A trial for kidnapping Coolies was lately had before the supreme court of Hong Kong. A Chinese shopkeeper, resident in Hong Kong, was charged with kidnapping and slave-trading. He had taken Coolies to embark in a passage for Macao, ostensibly for the Betel plantation near Singapore, but in fact to be conveyed to the sugar plantations of Cuba. In the course of his remarks the judge called attention to the marked distinction that exists in China, between a system of free emigration and that iniquitous traffic so productive of crimes like that now under consideration. After a short consultation the jury returned a verdict that the prisoner was guilty of every thing charged against him in the indictment. The judge then pronounced sentence of four years penal servitude.

A SMART GAME.—We learn that on Saturday last, John Miles, of the firm of Miles & Lacey, commission merchants, corner of Spring and Second streets, went around among several of our commission houses, and purchased from them all the wheat he could secure up, giving his checks for the same, amounting all to about \$5,000. He then took his tickets to the warehouse of D. Newhall and sold the several lots, taking Mr. Newhall's check for the same, which he immediately got cashed, and left for parts unknown, leaving his own checks, of course, unprovided for. Warrants are in the hands of the police for both of the partners, we believe, but up to this writing no information has been received. A lot of flour that changed hands in the same way, it is thought will be recovered.—Milwaukee Free Democrat.

They are in a ludicrous hobble in Troy. That city is full of cents, coppers and nickels; they are increasing so rapidly that the people are growing superstitious, thinking that they either multiply themselves, or that they attract other cents thither. They bid fair to become the exclusive currency of the city; already, ladies who buy for cash are forced to take with them a boy and a basket to carry the circulating medium. One of the papers calls for a public meeting on the subject, and for a concert of action.

Why is a pig's tail like a new-born baby? Because you never saw it before.  
What is the difference between a bare head and a hair bed? One flees for shelter, and the other is a shelter for fleas.  
There is healing in a smile, and laughing is medicine to the mind.

LIFE INSURANCE.—Those desiring this safest and cheapest protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.  
Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

S. S. DAGGETT, Pres't.  
J. W. KELLOGG, Sec'y.  
Messrs. Bixley & Harlow, produce dealers, and Capt. Geo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the condition thereof, to any one desirous of being informed, in Janesville. apr13dawl
